## BUSNEL PAYS D'AUGE AOC VSOP CALVADOS

**BUSNEL**

DEPUIS 1820

**"Busnel is the oldest producer in the Calvados region"**

**Story** Calvados are origin classified and their production is allowed only in well-defined areas in Normandy. The Busnel Calvados have the AOC Calvados Pays d'Auge quality classification, which is the most prestigious production area. The other two regions are Calvados AOC and Domfrontais AOC. Only cider made from apples grown in the region may be used for the preparation (in the Domfrontais region also from pears). Calvados sells around 6 million bottles yearly, split 50/50 between French domestic sales and exports (around 85% of cognac sales are exports). VSOP guarantees wine distillates are at least 4 years old.

**Producer** "Busnel, renowned for its expertise in producing Calvados, has a rich heritage steeped in tradition and craftsmanship. The family's dedication to distilling fine Calvados from carefully selected apples has been upheld through generations, fostering a legacy of excellence since the early 19th century. Their commitment to quality and attention to detail in the distillation process have contributed significantly to the brand's success. The distillery in Cormeilles, established over a century ago in 1910, serves as the heart of Busnel's operations, blending modern techniques with time-honored methods. Over the years, Busnel has earned a prominent position within the Calvados industry, achieving a market share that reflects the widespread appreciation for their premium spirits. Under the ownership of the La Martiniquaise group, Busnel continues its legacy of crafting exceptional Calvados. The brand's dedication to innovation, while preserving the traditional essence of Calvados production, remains a cornerstone of their success in the spirits market"
