PARÉS BALTÀ HONEYMOON

”Gently nuanced”

Story Honeymoon is the child of the most aromatic Parellada grapes in Parés Baltà. They grow in the highest hills of Penedes. The cool microclimate of the vineyard slows down the formation of aromas until the very end of the growing season and Parés Baltà has the patience to wait, in order to transfer the full intensity to the wine glass. Fermentation takes place in refrigerated steel tanks to preserve fruitines. The honeymoon in the name of the wine evokes the family history of Cusiné, the parents of the current directors spent their honeymoon in Finland and fell in love with the country. Biodynamic Honeymoon suits vegans

Producer Parés Baltà winery was established back in 1790 and remains a family-owned business to this day. Their wine production is infused with great passion, and the endearing and warm-hearted Cusiné family welcomes all wine enthusiasts to their estate, located just a short distance from Barcelona. The vineyards are situated across five villages, encompassing diverse terrains, valleys, and mountains. This allows for the cultivation of wines in both Mediterranean and continental climates, as well as in their intermediate zones. Some vineyards are nestled within nature reserves, where grapes grow almost magically undisturbed. The vineyards are located on centuries-old terraces, where wild boars, foxes, hares, and eagles are common sights.
