

BAROLO DEL COMUNE DI BAROLO

“A complex Barolo from the very first Barolo producer!”

Story The grapes for this wine are hand-harvested from the Barolo municipality area, from historic crus such as Cannubi, Sarmassa, Coste di Rose, Vignane, Preda, Boschetti, and Ravera. Each cru is vinified separately. After malolactic fermentation, the wines from different areas are blended, with half of the wine aged in small French barrels and the other half in large Slavonian barrels. After one year of aging, all the wines are transferred to large barrels. The 2015 vintage is known as one of the finest of our time in Barolo. A winter with abundant snowfall replenished water reserves for the hot summer, creating ideal conditions for the vines. In the Barolo del Comune di Barolo 2015, you can taste the richness, aromatic complexity, and spiciness characteristic of this exceptional vintage

Producer The aristocratic tale of Marchesi di Barolo begins two centuries ago in the heart of the town of Barolo. Marquis Carlo Falletti, alongside his French noblewoman wife, began producing wine on the estate. Generations later, in 1929, Pietro Abbona acquired the winery. To this day, the Abbona family owns the estate, which includes not only the central cellars but also 200 hectares of vineyards in the Langhe, Roero, and Monferrato regions. Within the cellars lies a wine library boasting 30,000 bottles, including aged Barolos. The aristocratic history demands royal quality, yet modern times bring their own challenges: the requirement for sustainability, modern technology, and today's wine preferences, which do not favor oxidized, woody, or heavy wines. Adding to this is the fact that wines bearing the names Barolo and Barbaresco are never inexpensive. The philosophy of the estate is encapsulated in two words: expertise and respect. Expertise encompasses all knowledge about each vineyard plot, their grapes, growth, and stages. Respect signifies how diligently the quality of the raw material is preserved and elevated during the winemaking process.
