CANTINA TOLLO

"Trebiano from Abruzzo also suits vegans"

**Story** Cantina Tollo is one of the most important producers of organic wine in Italy. This organic wine proudly represents the cooperative's long trajectory from organic farming that began in the 1990s, which now includes more than 50 farmers. The grapes are Trebbiano and were harvested at the end of September. Grapes were slowly aromatised in chilled steel tanks, which gave the wine structure. Fermented in refrigerated steel tanks to preserve fruitiness and the final maturation in the steel tank lasted another 4 months.

**Producer** "Cantina Tollo is a wine cooperative established in 1960, deriving its name from the village of Tollo located in the Abruzzo region of Italy near the Adriatic coastline. Cantina Tollo oversees over 3000 hectares of vineyards stretching from the Mediterranean Sea to the Maiella mountain range. The climate, characterized by warm days and cool nights, imparts complexity and acidity to the wines. The estate employs the pergola method for vine training, ensuring adequate airflow to shield the grapes from moisture and potential diseases. Cantina Tollo places a strong emphasis on environmental concerns, sustainable practices, and continually expands its production of organic wines."
