Italy, Sicilia DOC | 2025

STEMMARI GRILLO

STEMMARI

”Sicilian own grape”

Story Grillo is becoming more and more popular quality, richly flavoured grape variety from Sicily. It is a relatively young variety and DNA research has brought the, that it is a natural cross between Catarratto Bianco and Muscat of Alexandria. Sicilian sunshine gives Grillo a rich fruitiness and the temperature variation adds fine acidity. In addition, Grillo thrives in the sandy soils of the region. Grillo grape juice ferments well in a chilled steel tank at 18 °C for ten days and continues to mature on the lees for five months.

Producer In 2000, Gruppo Mezzacorona made the decision to expand its operations into Sicily in response to market demands and to produce wines in a warmer climate. They acquired approximately 900 hectares of vineyards in Sambuca di Sicilia and Acate. Stemmari represents an excellent example of wines crafted with the unwavering Trentino mentality while honoring the soil and climate of Sicily. The range comprises intense, elegant wines made from indigenous Sicilian varieties such as Nero d'Avola and Grillo, alongside other international varieties that have adapted exceptionally well to Sicilian conditions. It is often said that Sicilian wines bridge the gap between old-world and new-world styles, showcasing the characteristics of both. Gruppo Mezzacorona has brought the familiar Trentino approach and commitment to sustainability to Sicily. While some of their production is already organic, starting from the 2020 vintage, the entire production will be certified organic.

COLOR Straw yellow

AROMA Citrus on the nose, apples, green melon, herbs and ginger

TASTE Dry, freshly acidic, yellow plum, notes of herbs and grapefruit

TIPS FOR USE Grillo pairs well with seafood delicacies, pasta, with white meat and breaded fish. The richness and aroma of the wine makes it the perfect pair for veal carpaccio with celery and strawberries.
