

## MASO DI MEZZO MÜLLER THURGAU

"the treasure of the Dolomites"

**Story** in the village of Mezzo, good wine has always been highly valued. It has been served at communion and previously sacrificed to save the soul. High in the mountain shelter, the vine must fit the conditions, in which the Swiss Hermann Müller developed a cross between Riesling and Sylvaner. In the valley of Val di Cembra, this Müller-Thurgau fits perfectly and the Mezzacorona brings the renowned historical success to this day as an aromatic and fresh specialty of the Maso di Mezzo. Riesling's acidity coincides with Sylvaner's sweeter and more ripe fruitiness, bringing greetings from the Dolomites' slopes.

**Producer** "Mezzacorona is a cooperative located in Trentino Alto Adige. It was established back in 1904 when 11 founding members joined forces. The company is renowned for its efficient production of high-quality wines. Currently, it boasts over 1,500 farmer members managing vineyards covering a total of approximately 2,800 hectares. The region's geographical position plays a pivotal role in viticulture: the soil, altitude, Mediterranean climate, and the presence of the Alps create various microclimates and vineyards, providing optimal conditions for several grape varieties. Among the most cultivated are Chardonnay and Pinot Grigio. Mezzacorona's agronomists assist farmers in selecting the most suitable grape varieties for each vineyard and soil type. The company's operations are based on sustainable development practices. Nearly all waste is recycled, and between 2015 and 2019, the amount of waste produced decreased by up to 56%. About 70% of the wine cellars are located underground, maintaining ideal temperature and humidity without mechanical regulation. A significant portion of the electricity is generated by solar panels, and local suppliers are supported in procurement. Mezzacorona obtained the sustainable development SQNPI certification in 2016."
